## Racial Disorder Flares In Section of Brooklyn

NEW YORK (AP)—Racial rioting simmered down today in Harlem but disorder flared across the East River in the predominantly Negro Bedford-Stuyvesant section of Brooklyn.

A crowd of about 300 Negroes, some throwing bottles, surged through streets of the Brooklyn area shortly after midnight, shouting and smashing some store windows.

## Military Pay Hike Headed For Approval

### August Paychecks Expected To Reflect Change

WASHINGTON (AP)—A \$207 million yearly pay raise for more than 2.6 million military personnel was headed today for speedy enactment, perhaps in time to get into August paychecks.

The election-year bonanza whizzed through the Senate Monday by voice vote after it was formally approved without public hearings by the Senate Armed Services Committee.

If it gets through Congress and is signed by the President before the end of this month, the raises would become effective Aug. 1.

Chairman Carl Vinson, D-Ga., of the House Armed Services Committee called for speedy action. He steered the bill to a subcommittee headed by Rep. L. Mendel Rivers, D-S.C., who said House hearings would be brief.

Asked if he could get the measure to the President before the end of the month, Rivers said "we could very well do that."

The bill's effective date is the first day of the calendar month following enactment. Little opposition was expected in the House, which last month voted \$448 million in pay raises for most civilian government employees. The Senate has passed this bill with amendments and it now is awaiting compromise.

The military payroll would provide a 2.5 per cent increase in basic pay for all officers and enlisted men with more than two years of service. In this

Even larger increases—8.5 per cent of basic pay—would go to young commissioned and warrant officers with less than two years of service. In this category are about 44,601 officers, mainly lieutenants and captains. The basic pay of this group has not been increased since 1952, although officers with longer service have received three raises since then.

## Quiet Rights Issue 'Bid' In Campaign

WASHINGTON (AP)—Sen. Barry Goldwater is considering a call to President Johnson—the man he hopes to oust from the White House—for a campaign pact aimed at keeping civil rights tensions "a completely quiet question."

The Republican presidential nominee said he doesn't want the campaign ahead to inflame "this tension that exists," and added one way of easing it would be stricter enforcement of laws guaranteeing the right to vote.

At the White House, press secretary George Reedy said Johnson "would not do anything to incite or inflame tensions" during the presidential campaign. He said Johnson would give serious consideration to a meeting with Goldwater if the Republican nominee formally proposes one.

Goldwater said he would "ponder" making the formal call.

The Arizona senator talked about civil rights at a surprise news conference in Chicago Monday as he headed for a Washington homecoming soured by the jeers of self-styled American Nazis.

Police said the demonstrators apparently were acting in sympathy with racial rioters in Harlem.

Meanwhile, a picket line formed in front of City Hall to protest police tactics in Harlem and demand the ouster of Police Commissioner Michael J. Murphy.

NEW YORK (AP)—President Johnson entered the race riot picture in Harlem today with a call for a full FBI investigation of the violence which claimed one life and brought injury to more than 100.

Some civil rights leaders have accused the police of brutality.

Harlem, after two nights of rioting, had more disorders Monday night but on a lesser scale than before.

Police pistol fire still shattered the air Monday night. Hundreds of steel-helmeted police patrolled the area. Major streets were again closed to traffic.

Chanting Negro demonstrators marched through the streets. Roving gangs harassed police. Looters broke store windows. A melee between police and bar patrons wrecked a tavern.

Two dozen persons, including three policemen were injured. There were a score or more arrests.

Mayor Robert F. Wagner's office reported after he was given a report on the situation by telephone that he was returning today from a European vacation.

Police officials said Harlem was markedly quieter Monday night. There were no widespread disturbances.

James Farmer, national director of the Congress of Racial Equality, said his office had been in touch by telephone with President Johnson's aides. He said "nothing conclusive" came of the talks.

## Showdown Push Against Cuba Regime

WASHINGTON (AP)—Foreign ministers of the American republics, meeting here this week to determine what sanctions should be taken against Communist Cuba, held a preliminary secret session today.

There was widespread talk among the delegates that tough penalties would be adopted against the Fidel Castro regime for its attempt to overthrow the Democratic government of Venezuela.

"I think we are winning in our demands for fullest sanctions," said Enrique Tejera Paris, Venezuelan ambassador, as he went into the closed-door meeting.

Venezuela has insisted on a break in diplomatic relations with Cuba by all American republics and a suspension of all trade with Cuba, except for food and medical supplies.

Jose A. Mora, secretary general of the Organization of American States, presided at the opening of the secret session called chiefly to elect presiding officers and committees of the conference of hemisphere foreign ministers.

## Railroad to Serve Southeast Region

ST. LOUIS (AP)—The St. Louis-San Francisco Railroad is seeking to build 41 miles of railroad costing \$5 million to serve large mineral deposits in Southeast Missouri.

The railroad said Monday it filed an application with the Interstate Commerce Commission for authority to build the track in Crawford, Iron and Reynolds Counties. It would extend from Keysville through Viburnum, Bixby and Buick and terminate near West Fork.

# Delay Garbage Fee Action

## Council Hears Ordinance Read; Jesse Calls for Printed Copies

A city ordinance to provide a \$1 fee for city garbage collection was read for the first time Monday night to City Council. Action on the ordinance fell under the rule of reading an ordinance once at the meeting it is introduced and then holding it over until the next meeting for the second reading and final passage.

The ordinance was vague in spelling out what the new garbage pickup system would cover, other than that papers and sticks must be wrapped in bundles and cannot weigh over 25 pounds otherwise the waste would not be picked up. There was no outline on how much would be charged a residence occupied by more than one family.

President pro-tem J. C. Griffin endeavored to explain that he presumed the charge would be made against each family unit and conceded the ordinance failed to define how the charges would be made, other than being placed against the water meter customer.

The ordinance indicates residents do not have to subscribe to the pickup service, but must take care of their own household rubbish. However, it cannot be left to create a nuisance.

Councilman Walter Jesse remarked, after the ordinance was read, "This is no emergency, so we don't have to read it and pass it tonight. I would like to have an ordinance to study before I cast my vote. I just don't understand it (the ordinance) the way it has been read."

Griffin informed him that copies would be made.

## Javits Won't Support Barry 'At This Time'

NEW YORK (AP)—Sen. Jacob K. Javits, R-N.Y., said today he would not "at this time" support Sen. Barry Goldwater of Arizona for the presidency.

Javits expressed hope that as the campaign develops, issues are raised and opinions restated or clarified, he could support the Republican national ticket. But he said, "This will call for some action by Sen. Goldwater."

Javits emphasized that he was not bolting the party and that he would not support President Johnson, who is slated for nomination by the Democrats as Goldwater's opponent.

## Passengers, Crew Unhurt in Landing

CHARLOTTE, N.C. (AP)—All 51 passengers and crew of five escaped injury Monday night when an Eastern Air Lines DC7-B from Atlanta crash-landed at Charlotte's Municipal Airport.

Airport officials said the plane's two left engines failed to reverse, a procedure used to slow the craft, and the nose wheel collapsed as the plane veered to the right at 60 miles per hour.

The plane went off the runway and nosed down a five-foot embankment.

## Court Convicts Soldier On Desertion Rap

STUTTGART, Germany (AP)—U.S. Army medic Conrad Yumang, who spent more than seven months in Communist East Germany, today was convicted of desertion and being absent without leave. He was to be sentenced later.

A general court-martial deliberated 90 minutes before finding the survivor of the Bataan Death March and holder of the Bronze Star guilty as charged.

Yumang, 43, from Melabon City, the Philippines, had denied deserting but pleaded guilty to being absent without leave.

The maximum penalty on the two charges would be 2½ years at hard labor and a dishonorable discharge.

Yumang, who has 19½ years' service in the Army, said he never intended to desert.

A specialist 6th Class, he said he planned to spend 5 to 10 days in East Germany while his wife's anger over his Turkish girl friend subsided.

# City Budget Up

## Steel Plant In Operation Here Aug. 1

DeLong's Inc. of Jefferson City is planning a production start at a subsidiary steel fabrication plant here on the Missouri-Pacific shopgrounds about Aug. 1.

F. Joe DeLong, president of the firm, said Monday afternoon that preliminary hiring of about eight employees has been completed and the plant will open with these workmen. Once in full swing the plant is expected to require 35 to 50 workers, all men.

"We did more extensive tooling up than we had planned at first, but this will increase our production later," DeLong said.

"The whole plant will be devoted to the construction of long span steel joists. These are used in building commercial, warehouse and factory-type buildings and we ship them practically all over the United States."

The DeLong operation will be located in a building purchased from the Missouri-Pacific and located at the northeast corner of the shopgrounds. Five acres of land for storage of raw and finished materials was included in the purchase.

## Tax Levy Hiked By Sewer Bonds

By D. KELLY SCRUTON

The budget for the City of Sedalia hit its highest point, Monday night, when City Council approved a total budget for the fiscal year 1964-65 of \$1,049,015 compared with \$1,043,800 for 1963-64. The Council also set the tax levy at \$1.85, for this year. Last year's levy was \$1.50. The increase at \$35 is the result of the \$3-million sewer bond issue.

Councilman J. C. Griffin, chairman of the finance and tax committee, sitting as Mayor Pro-tem in absence of Mayor L. L. Studer who is ill in the Missouri Pacific hospital at St. Louis, made the budget report.

Griffin began his explanation of the budget by reviewing the Civil Defense budget. He said, "members of the City Council met with the Pettis County Court and it was agreed that we would continue with Civil Defense on a part time basis only. The County paying half and the City paying half which amounts to \$1,200 per year each. We have included that amount in the General Administrative fund."

He then gave the following breakdown as follows: General Administrative, includes cost of Civil Defense and an increase in cost of insurance of \$5,200, and the salary of the license inspector, a total of \$122,848.

Airport, \$20,550. This includes improvements in last year's budget in the amount of approximately \$11,000, but not completed and paid for until 1964-65 fiscal year.

Fire Department, \$117,556 includes \$1,000 for new fire hose and smoke masks. Extra Police Funds Police Department, \$168,506. This includes salaries for five civilian employees for school crossings at \$75 per month or a total of \$3,375, for the nine months.

Street and Alley, \$160,952. These funds are all earmarked for street and alley improvement, and includes \$9,600 for new equipment, and \$14,290 for improvements.

Sewer and Sanitation Department, \$139,600. Includes salary and car allowance for Sanitary Engineer in the amount of \$7,200.

Parks, \$48,430. It is also recommended that the Park Department retain again this year all rentals for Convention Hall and other facilities.

Public Buildings and Grounds, \$15,182. Does not include any improvements to buildings and grounds.

Lights and Water, \$98,800. Includes additional street lights and water hydrants in new developments and street lights on North Highway 65 to Main Street and on West Highway 50 to the city limits.

Griffin went on to say the separate cemetery fund of \$26,002 and funded accounts for the (Please turn to page 5, col. 3)

## Arrest Ex-Convict For Selling Weapons

CHICAGO (AP)—U.S. Treasury agents have arrested an ex-convict and charged him with the illegal sale of guns. They said they believed he has sold 1,500 revolvers in Chicago this year.

In custody is Willie E. Ingram, 23, charged with interstate traffic in firearms without having a federal tax stamp.

Federal investigators, who seized Ingram Monday when he tried to accept delivery of a shipment of 22-caliber revolvers, said he had been buying the German-made guns for \$9 and peddling them for \$16.

## Two Men Killed When Truck Strikes a Pole

KANSAS CITY, Kan. (AP)—Two men were killed in a pickup truck that hit a utility pole beside U.S. 73 in Wyandotte County last night.

They were Frank Myers, 28, of Shawnee, Kan., and Charles R. Sisk, about 30, Olathe, Kan. Myers was a partner in the Best Concrete Co. and operated several concrete foundation services, one of them in Leavenworth.

Gordon Tallman, highway patrolman, said the truck skidded sideways 100 feet before wrapping itself around the pole. Officers and firemen worked for two hours with three wreckers and cutting torches to get the victims out of the twisted cab.

## Full Retreat By Enemies Of Ben Bella

### Moves Against Him Appear To Tighten 'One Man Control'

ALGIERS (AP)—Most of President Ahmed Ben Bella's enemies are in full retreat, and every new move against him seems only to tighten his one-man rule over Algeria.

Everywhere except in the Kabylie Mountains, the loyal national army is in full control. Rebel leaders are being picked up one by one or are fleeing into exile. All legal political opposition to Ben Bella's "Socialist revolution" is silenced.

Even in the Kabylie there is evidence that the traditionally rebellious Berber tribesmen, weary of almost 10 years of continuous guerrilla warfare, are wavering in their allegiance to insurgent leader Hocine Ait Ahmed.

Ben Bella's popularity appears to be declining everywhere as his pseudo-Marxist policies help to plunge the nation ever deeper into economic crisis. But for the moment there is no trace of widespread popular revolt or of sympathy for fugitive rebels still calling for a general uprising. Nor is there any sign of disaffection in the army, the mainstay of Ben Bella's regime.

Although he is beset by towering economic problems, Ben Bella has emerged strengthened from every clash with his hopelessly divided opponents.

Col. Mohamed Sahabani, who tried to stir the Sahara against Ben Bella, was betrayed by the same population that helped him for eight years to elude the French. His arrest roused not a stir of sympathy.

## Seized Bank's President Is Missing

BELLEVIEW, Mo. (AP)—This picturesque Ozark town of 250 persons, its only bank now controlled by the Missouri commissioner of finance, is filled with suspicion and anxiety.

The Belleview Valley Bank was closed Monday because of insolvency and the president and principal stockholder, Wayne E. Woolsey of Maquon, Ill., has disappeared.

Telephones of board members and bank officers ring constantly with requests for information about the money of the 1,500 depositors. Party lines buzz with gossip.

In front of the town's two grocery stores, residents gather to speculate on developments. An edginess about a lack of information pervades the community.

Bank deposits total about \$1,195,000 and are insured up to \$10,000 by the Federal Deposit Insurance Corp. An FDIC team, led by director K. A. Randall and Lewis Beasley, a supervising examiner, arrived today. They expect to pay off depositors in a few days. Ninety to 95 per cent of the deposits are insured.

At Jefferson City Monday, State Commissioner R. B. Mackey said the bank was seized because state examiners consider some of the bank's out-

## Seized

(Continued from Page One) standing loans "not proper investments."

Deputy Commissioner John Ridgeway said the examiners felt it might be difficult to collect some of the loans. He said the division of finance has had the bank under close scrutiny for about six months.

The seizure was the first in Missouri since 1959 when the state took over a bank at Liberal, in Barton County.

Bellevue businessmen expressed concern and regret about the bank's seizure. Many did business solely at the bank. The nearest bank is 10 miles away in Ironton.

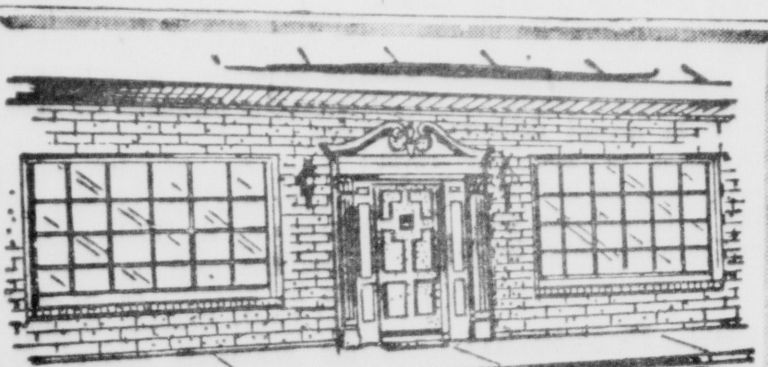

The bank was returning checks and mail deposits to customers, following a closed-door meeting Monday night of bank directors Lyle Adams and Carl Degonia of Arcadia, and Frank Wallis of Bellevue.

Meanwhile, U. S. Attorney Richard D. FitzGibbon announced in St. Louis today he has entered the investigation. He declined further comment.

Woolsey, a farmer, acquired ownership of the 52-year-old bank early this year. A hotel where Woolsey stays when conducting business at the bank reported that he had checked out Friday.

Information relayed to police by a young Sedalian whose car is equipped with a Citizen Band radio resulted in an arrest and two teenage boys being charged with petit larceny late Monday night.

Gary Williams, 17, 2401 Albert Lee, was driving south on Limk at 11:40 p. m. when he observed two youths jump in a car and drive away hastily from the Mike O'Connor auto agency, 1300 South Limit. Williams was able to follow the departing car and obtain a license number which was relayed to another CB'er, Russell Petree, who in turn called police.

Officers a short time later halted a 1958 auto bearing the license number. The driver, Dwight R. Miller, 17, Route 4, and Leonard Wayne Rosenhan, 18, 1620 South Brown, were arrested.

Police said a chrome air cleaner valued at approximately \$84 was found in the trunk of Miller's car. The air cleaner had been removed from a new Chevrolet 409 automobile at the agency, according to officers.

The two youths were held in jail until 12:45 a. m. when they were released on \$25 cash bonds pending appearance in Police Court on July 24.

Police earlier in the evening at 8:55 p. m. had arrested Miller at Broadway and Limit for careless and imprudent driving. He was released on summons for appearance in Police Court on July 29.

David Gentry, 807 East 24th, told police two dummy spotlights of teardrop design were stolen Monday night while his 1956 auto was parked at his address. The lights were valued at \$8.

Joe Ripley, Route 4, charged with leaving the scene of an accident and driving while intoxicated, forfeited a \$75 bond.

Herbert A. Johnson, Knob Noster, charged with driving while intoxicated, forfeited a \$75 bond.

## Women of Moose Install Officers Sunday P. M.

Patricia Starkey was installed as Regent of the Women of the Moose in a ceremony held Sunday afternoon at the Moose Home.

Lloyd Dueschle, deputy supreme governor of the State of Missouri officiated as installing regent and Ruth Lindsey, serving as installing guide, introduced and presented the following new officers to serve with the new regent, Patricia Starkey, as follows: Julia Riley, junior regent; Jennie Brown, junior graduate regent; Hazel Grinstead, chaplain; Gertrude Head, recorder; Maria Thomas, treasurer; Alice McMellen, argus; Phyllis Williams, guide.

Chairmen of the various committees will be announced at a later date.

Accepting the gavel for the installing regent, Mrs. Starkey thanked the co-workers for electing her to the office and pledged her efforts would be directed toward fulfilling the obligations she had assumed.

Jennie Brown, retiring regent, complimented the chapter on the many accomplishments of the past year and wished for her successor the same cooperation that she had had.

Each was presented a bouquet of pink carnations and the Chapter presented a gift to the graduate regent in recognition of the time and effort given to the projects of the Women of the Moose during her term.

Rose Robb served as installing chairman, assisted by Ruth Lindsey, installing guide, Alice McMellen, installing chaplain; and Virginia Luther, installing pianist.

Following the ceremony refreshments were served at decorated tables.

A dance band furnished music to conclude the evening.

Rockwell, leader of the American Nazi party — interrupted Goldwater's appearance on the rostrum at an outdoor rally at Washington National Airport. One of the group said they were protesting what he called Goldwater's "liberal record."

The senator's parting shot: "They can have Rockwell or anybody else they want. I'll take my chances with the majority of Americans who are Americans."

At a news conference in a Chicago airport lounge, Goldwater said he wants to keep the explosive side of the civil rights question out of the presidential campaign.

"I don't want to see any words of mine or anyone connected with me touch anything off," he said. "I'm not going to inject this issue and I don't think he (Johnson) is."

"Let's give this law a chance to work," Goldwater said of the new civil rights measure he opposed in the Senate.

A reporter asked Goldwater about the possibility of an agreement between the Republican and Democratic contenders for the presidency to avert campaign measures that would increase tension.

"I think that's a very good idea and that's gone through my mind," Goldwater said. "I would welcome a chance to sit down with the President and discuss this particular issue that might come up."

The senator criticized the way civil rights laws are being enforced now.

## Rose Marie Back After Mate's Death

By JAMES BACON  
AP Movie-Television Writer

HOLLYWOOD — (AP) — Next week Rose Marie plays a real life Pagliacci.

A wise-cracking comedienne, she plays the single girl who is always looking for a man on "The Dick Van Dyke Show."

The show took a summer vacation and resumes filming July 30.

During that vacation, Rose Marie lost her husband of 18 years. He died suddenly from a blood ailment.

Her husband, trumpeter Bobby Guy, was the comics' favorite musician. A hearty, sincere laughter, he was always in the band when Jerry Lewis, Danny Kaye, George Gobel or any of the other big name comics appeared.

He also was a good trumpeter — once featured with the Kay Kyser band in the Thirties.

Rose Marie, a former stage and movie child star, has been in show business all her life but never wound up with the adult problems of most child performers.

"Somehow, I never felt as if I were different than other kids," she says. "I thank my mother for that. Maybe that's why Bobby and I had such a happy marriage."

"We had 18 wonderful years together — and a wonderful daughter who is the image of her father. And she is so much like him in many ways, it is the one solace I have."

"That and all the wonderful letters from people I never even knew existed. Lots of them from friends of Bobby — friends I never knew he had."

Bobby loved all comics. But his favorite was his wife.

Gobel once quipped: "Bobby is such a fan of Rose Marie that he's the only husband in town who asks his wife for an autograph at breakfast."

Asked how she felt about re-summing her comedy career, Rose Marie did not go into the spiel about "the show must go on."

"I dread it," she said sadly.

seem intent on stepping up the pressure on the U.S.-supported neutralist government.

All this might point to an attempt to seek a showdown at a time—during an election campaign—which is awkward for the United States.

A presidential background to all this is for a new 14-nation Geneva conference. The Red Chinese would like to see South Viet Nam neutralized and the Americans out, though it is unlikely the Communists ever would agree to neutralize North Viet Nam.

Ten years ago, France threw in the towel in Indochina. Now President Charles de Gaulle's government wants the Geneva conference reconvened to consider a guaranteed neutrality for all Indochina—Laos, Cambodia and the Viet Nams. De Gaulle contends any lasting settlement must take into consideration the incontrovertible fact of massive China and her interests.

France achieved a settlement 10 years ago by agreeing to talk with her adversaries in Indochina. But the Communists had left hordes of their own cadres in South Viet Nam. The settlement lasted only until they were ready to mount an offensive to take the whole country.

Theoretically, Viet Nam was only temporarily divided at the 17th Parallel. There were to be elections eventually to unify the nation. Laos was to be sovereign, with the Communist Pathet Lao retaining pockets near the North Viet Nam border temporarily, pending a Laotian national coalition.

Washington contends few of the provisions were observed and that thus a new Geneva conference would be pointless, unless it could produce an iron-clad guarantee that the Communists would leave their neighbors in peace.

If the Communists feel this is an opportune moment, one can expect a burgeoning offensive which could face Washington with an embarrassing election-year dilemma: Counter-measures which could spread the war or agreement to a new conference.

# Ann Landers Answers Your Problems

Dear Ann Landers: We were foster parents of a small boy and watched him grow up to be a splendid young man. Then came the war. Steve was one of the heroic lads who never came back. The pain of losing him was unbearable, but time does heal, thank God.

Recently a young delivery boy came to our door. He looked so much like our Steve that I started at him in disbelief. Not only did he resemble Steve in physical appearance, but in his voice, the way he moved his head, his walk. It was Steve all over again.

We did not know much about Steve's parents, but this delivery boy must be a relative—perhaps a younger brother.

We now live 2,000 miles from where we reared Steve. So far as we know, Steve had never been out there. This would not rule out the possibility, however, that the boy might be Steve's brother.

I'd like to know what you think I should do. I can't get it out of my mind.—FOSTER MOTHER

Dear Mother: The war has been over almost 19 years. Had he lived Steve would probably be in his 40's now.

Your description of the delivery boy sounds as if he is too

young to be Steve's brother. But ask the boy about himself. No harm will come of it, and it will set your mind at ease.

Dear Ann Landers: My husband is a divorced man. His only daughter is being married in a few weeks. Last winter she telephoned her father and asked him if he would give her away. He agreed and was very pleased.

The wedding invitation came yesterday — addressed to him. My name was nowhere in sight. The girl's mother has not remarried so I know my husband will be expected to sit with his ex-wife and stand at her side in the receiving line. The thought of this burns me to a cinder but I am trying not to show it.

The wedding will be in Providence, which is a short trip from here. My husband has not said one word to me about accompanying him although he knows I'm dying to go.

Please tell me if I should insist that he take me. To be truthful, I am—FROTHING.

Dear Frothing: I've never been able to understand why people want to go places they have not been invited and are not wanted.

You would be as welcome at this wedding as Nasser at a Passover Dinner. Stay home and don't make life unpleasant for yourself or others.

Dear Ann Landers: I am a boy 17 who has had only six dates. I am trying to act sophisticated but there are a lot of answers I don't know yet.

The problem that bugs me right now is one I can't discuss with friends. They would laugh. Maybe you will laugh, too, but since you don't know me and I don't know you, it doesn't matter if you laugh or not.

I have taken the same girl out four times. I think she wants me to kiss her goodnight. The porch light at her place is always on, and it's a real bright one.

Shall I kiss her in the car or under the porch light? Thanks a lot.—BENJIE

Dear Benjie: I don't see anything to laugh about. This is a very serious matter. By all means kiss her under the porch light. But get it over in a hurry or you might meet one of her relatives.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

## FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

## YOUR EYES AND VISUAL FUNCTIONS

Did you have a child in school this past year? If so, how well did the child do with the year's work?

The parent of every child who does less than his best, who fails or even achieves less than expected, should give serious thought to the possibility of a visual problem as a possible cause.

We should always remember that most children have eyes and vision better adapted for distance seeing than for near work. The school tasks are many and varied but every child is expected to do much work at near range. Many failures in school can be traced to eyes and vision not adapted for these close range tasks.

The Missouri Optometric Association would suggest to all parents of school children, especially to those who have children who fail to do good work, that it is highly worth while to be sure about eyes and vision. No child can achieve well without good and efficient vision.

Parents of pre-school children especially should give thought to whether or not the child will be ready visually to enter school. A careful optometric analysis of the child's vision for near point tasks is of great importance. It is far more than a mere visual acuity test or the tests made in a screening survey, important as these are.

Many times the optometrist will want to compare the results of a pre-school examination with later visual work. These comparisons have great value.

## How Wide Is Barry's Appeal?

One of the imponderables of 1964 is just how deep and widespread is Barry Goldwater's support around the nation.

Though his opponents certainly no longer dismiss him as merely the darling of a small, radical right-wing fringe element, many cannot bring themselves to believe that Goldwater has any real appeal to the mass of voters clustered around the center.

It is obvious, of course, that he has appeal to those right of center. Just how many of them there are only the vote count on the evening of November 3 will tell.

But it may be that there are more of them than is generally believed and that the political center—the point supposedly dividing "liberals" from "conservatives"—is not where it is thought to be at all.

In his "The Conscience of a Conservative," Goldwater summed up his basic philosophy of government:

"I have little interest in streamlining government or in making it more efficient, for I mean to reduce its size. I do not undertake to promote welfare, for I propose to extend freedom. My aim is not to pass laws, but to repeal them. It is not to inaugurate new programs, but to cancel old ones that do violence to the Constitution."

Should Goldwater be elected and live up to those words, there would be great changes in the entire government.

But it is paradoxical that those who have rallied behind Goldwater thus far are not the poor and dispossessed of this country, the least free, those one would think should be most dissatisfied, those who usually conduct revolutions. Nor are they the very rich.

Rather, they are the well-to-do, middle-class, successful. They are those who have

prospered most under the American system.

Yet, despite this prospering, many of them seem to be possessed by a great sense of frustration, the feeling that they and the nation have been pushed around and taken for a ride for the past 30 years and that the time has come to call a halt. They claim they have been deprived of certain unspecified rights and intend to take them back.

One possible explanation for this anomaly hinges on the statistical fact that 82 per cent of today's 192 million Americans either were not born or were under 21 when the stock market crashed in 1929.

Indeed, 68 per cent were either not born or were under 21 in 1941, when one out of every 10 workers in America was looking for a job.

Sixty-three per cent were either unborn or under 21 in 1945 when World War II ended.

Thus, it has been argued, there are a significant number of voters who have never known anything but good times, who never experienced depression, mass unemployment or global war, who have heard all their lives about "government interference" but did not live through the terrible events that led to a break with 19th-century laissez-faire philosophy.

This is only a partial explanation, of course. A lot of oldsters like Barry, too.

A lot of other Americans will be interested in hearing, between now and November, Barry Goldwater and his supporters elaborate on just how the size of the government is to be reduced, what laws will be repealed, exactly what is meant by "freedom," and how this will substitute for welfare programs.

## Looking Backward

## TWENTY-FIVE YEARS AGO

Miss Marian Phipps was selected by the executive committee of the Girl Scout Council of Sedalia to succeed Mrs. Landon Welch as scout executive in charge of all girl scout activities effective September 1.

## FORTY YEARS AGO

All pool tables in the city are covered and no games of billiards or pool are being played in any of the billiard parlors of the county, following an order made six months ago by the Pettis County Court stating that at the expiration of the licenses then in effect, no more would be issued.

— 1924 —

Members of the Sedalia Real Estate and Loan Association at a meeting at Hildebrandt's went on record favoring an ordinance prohibiting the parking of automobiles on Ohio avenue for a longer period than one hour.

## Nature vs. Nurture

One line that contains as much truth as poetry is Wordsworth's "The child is father of the man."

What kind of man a particular child grows into is undoubtedly the chief concern of society, and it is a concern that must begin long before the official manhood age of 21.

According to Benjamin S. Bloom, professor of education at the University of Chicago, a child has reached approximately half of his development of:

Height by the age of 2½.  
General intelligence by 4.  
Aggressiveness (males) by 3.  
Dependency (females) by 4.  
General school learning by 9.

Bloom is clearly on the side of nurture in the old "nature vs. nurture" controversy. "While men may not be born equal," he says, "many of the differences and inequalities at maturity are traceable to environmental inequalities."

"A society which needs highly skilled, well-trained individuals to carry on political, social and economic functions in an increasingly complex world cannot ignore the enormous consequences of what transpires in the first five years of life."

## Washington Merry-Go-Round

## Economic Statistics LBJ's Best Reply

WASHINGTON — Dr. Walter Heller, chairman of the President's Council of Economic Advisors, has placed a significant memo on his desk which may be the indirect answer to Sen. Barry Goldwater.

It presents some important economic accomplishments since Lyndon B. Johnson entered the White House.

Some of these figures have already come out from the Commerce Department and other government agencies, but added together they present a significant economic picture.

Significant is the report that the average income of a family of four went up almost \$370 during the eight months of the Johnson administration after taxes. This is an unprecedented increase.

The White House is not going to make any comparisons, but this figure could be an answer to white workers in the big cities who have announced they will vote for Goldwater because of Negro competition for their jobs.

Another figure on the President's desk shows that stock values have increased in value by \$100 billions during the eight months since November.

MEMPHIS COMMERCIAL APPEAL: Out in the Open. — Publication in this newspaper of names of persons wanted by the Memphis police for unpaid traffic tickets has stimulated collections quickly and considerably.

Suddenly the scofflaws have developed a healthy respect for the law. The glare of publicity has a way of straightening out such situations. Out in Montana, juvenile delinquency is on the decline although in the nation as a whole it's increasing. The reason is that Montana has abolished its juvenile courts and now deals with all juvenile offenders in open courts of law. Names and addresses of those brought before the courts, the nature of the crimes, and the identities of the parents are published in newspapers.

This ripping of the veil of semi-secrecy off scofflaws and delinquents is having the desired effect, and we can find no persuasive argument against more of the same.

## Nuisance Taxes

The White House is accused of sex discrimination because of the excise tax on cosmetics, handbags, jewelry, luggage and furs. The Republicans in the House would like to see these luxury taxes eliminated. They say these are "nuisance taxes" and should be knocked out of the Johnson budget. They add that the excise taxes are left over from World War II and have outlived their usefulness. Besides, they are directed against women.

One ardent Congressman who wishes to get rid of the excise tax said "Even the wedding ring she wears on her finger is taxed." But don't forget, it was a man who bought the ring for her.

It is true that many articles which used to be considered luxuries have become necessities, but the government is everybody's business, and taxes, if not too great a hardship are a privilege, and a democratic way of supporting the government.

Eliminating the excise tax would cost the government \$17 million dollars a year. Most of the persons who can afford luxury items can also afford the tax.

## Issues Reflect Peculiar Period

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP) — This year's election campaign—including the candidates and the issues—reflects the peculiar period in which Americans are living. There has been nothing like it for 35 years.

If this was a time of crisis or peril for the United States, the energies and even the hostilities of Americans would be directed not inward among themselves but outward toward the common, foreign foe.

Internal differences would be submerged.

Even if this was a time of depression there would be a common cry and search for new solutions and new programs to save the nation from disaster. The people would be wrapped in a common garment of uncertainty.

But this is not that kind of time. Compared with years gone by this is a prosperous and tranquil period. Because it is, Americans now have the luxury of time for self-examination,

self-criticism and internal hostilities.

There has been no such time since before the 1929 market crash. Then came the years of depression, despair and fright, the new programs of President Franklin D. Roosevelt and the gratitude for his leadership as expressed in the 1936 election which gave him every state but two.

Before the depression was over, and before Roosevelt's third election, the United States had moved into the anxiety and the preparations of the years just before World War II. Then there were the war years.

After them—the years of reconversion to peace, the stunning realization that the nation had only moved from a hot war to a cold one, the repeated crises created by communism, the Marshall Plan, the Berlin blockade, the Communist takeover in China, the formation of NATO, the Korean war, the nuclear race with the Soviet Union and the agony of internal suspicion in the McCarthy era.

The years that follow, the years of President Dwight D. Eisenhower, were not tranquil. These were the years of the missile race, of the probings of Nikita Khrushchev, of new nations emerging. All of them were uneasy years.

They did not become easier when President John F. Kennedy took over. Khrushchev tried him out, too, with the Berlin wall, nuclear testing, missiles in Cuba. It was only after Kennedy forced a showdown with him in Cuba that some tranquility began.

This coincided with the disintegration of unity in the Communist world. The Reds turned their energies and hostilities inward, criticizing one another. It was then that a comparatively peaceful period for this country began.

True, there is still Castro's communism in Cuba and the war in Viet Nam is going anything but well. But neither directly menaces the safety of the United States, which at last is beginning to feel secure behind an armed strength greater than anything the Communist world can muster.

Now, with crisis absent and tension eased and the country fairly prosperous, Americans have more time to examine themselves, criticize themselves, express their discontent with themselves.

President Johnson in a very real sense is the custodian of the programs, at home and abroad, built up since 1929 and he is intent on adding new ones, particularly in the social welfare field.

Sen. Barry Goldwater, the Republican nominee, represents the forces which have long been discontented with those programs, particularly the enormously enlarged role of the federal government in life of the nation over these past 35 years.

Much of the campaign may be concentrated in that area. But it is only because the country is now rich, and at last tranquil, if only temporarily, that those who share and oppose Goldwater's view of America and the world have a chance to express their feelings.

YOUR DENTAL HEALTH  
Dentist Sees Tongue As Map to Mouth Health

By William Lawrence, D.D.S.  
Newspaper Enterprise Assn.

"Stick out your tongue," the doctor used to say. You almost have to add: then he climbed into his buggy and drove down the country road. When was the last time your doctor asked to see your tongue? Alas, it seems that the tongue cult is no more.

However, the tongue is still important as a diagnostic aid to dentists.

Look into a mirror and stick out your tongue. If you can't extend it very far, it may be because the attachment of the tongue to the floor of the mouth is short. When it's too short, it can be a cause of speech defects. Not infrequently in children, this short attachment, or frenulum as it is called, has to be cut to allow more freedom of movement.

If your tongue extends too far then you may be one of those people who habitually stick it out at the mirror. It's been reported that a patient who thought he had cancer of the tongue kept sticking his tongue out to examine it every time he passed a mirror: his tongue actually got longer.

If your tongue deviates to one side, it may indicate a partial paralysis or a swelling in the floor of the mouth.

Is it hesitating or tremulous? Then it suggests nervousness or hyperthyroidism. Tremors also may be due to alcoholism or, in the sick, to weakness.

"Clean tongue" is often as-

sociated with vitamin deficiency. It is named after its discoverer, Dr. Sandwith, and it has been given the marvelous name of "bald tongue of Sandwith."

Black, hairy tongue is a fright. Yet it is a harmless, benign condition which makes the top of the tongue look like a cocoa mat that got thoroughly wet and matted down. The color actually varies from yellow to brown to black, and is thought to be due to poor mouth hygiene. It is sometimes caused by certain antibiotics which alter the normal balance of organisms in the mouth.

Crenated tongues have scalloped edges. This condition comes from pressing the tongue against the backs of the teeth, usually the lower front ones. The border of the tongue takes the shape of these teeth, especially if they are covered with tartar, which makes them rough. It's of little consequence medically, except that this irritation may produce a sore tongue.

Geographic tongue is just what it suggests: due to changes in the length of the papillae on the dorsum, or top of the tongue, it looks like a map. It's also of no pathologic significance, but it is sometimes painful and is more easily irritated by hot and spicy foods.

Do not attempt to be your own diagnostician. If you have a tongue lesion, see your dentist.

## Fear of Frequent Moves May Affect Behavior

By Wayne G. Brandstadt, M.D.,  
Newspaper Enterprise Association

"To say 'goodbye' is to die a little," a poet once said. Now, Dr. F. A. Pedersen of the National Institute of Mental Health has investigated what emotional damage may be done to children by frequent family moves.

Although moving is a part of life for many persons these days, Dr. Pedersen limited his study to boys from military families. Emotional disturbances showed up in difficulties with studies and school authorities, truancy, vandalism and various neuroses.

The doctor studied 27 disturbed boys and compared them with 30 normal boys also from military families. The average age in both groups was 13 years. They had moved an average of 9 times in their lives. One of the normal boys had moved 17 times. It seemed there had to be some factor other than moving to account for the abnormal behavior of the emotionally disturbed group.

For one reason or another the mothers of these boys disliked moving and disliked their husbands' occupation. Most significant of all, they blamed the faulty behavior of their sons on the fact that they had to change schools so often. The parents of

the normal boys on the other hand loved to see new places and believed that each move was both an opportunity and a challenge which in the long run would broaden the minds of their sons.

Thus it became evident that it was not the moves but the preconceived fear of the effect of the moves on their children that was the cause of the difficulty. This bears a close parallel to the studies that showed that a parent's fear that his normal child was beginning to stutter is actually the underlying cause of stuttering.

Q—Our 6-month-old son has had a hydrocele since birth. What do you advise?

A—A hydrocele is an accumulation of fluid in the scrotal sac. This is rather common in infancy and, since it causes no harm, nothing need be done at present. In most boys the swelling disappears spontaneously. If the hydrocele is still present when he reaches adolescence you should consult your doctor and you should consult him sooner if the swelling is large enough to cause difficulty when he starts walking. Several different surgical procedures may be used.

## Save Ruffles for Splicing

By Polly Cramer  
Newspaper Enterprise Assn.

DEAR POLLY—I practice Calvin Coolidge's philosophy of "Eat it up, wear it out, make it do or do without." When I make new ruffled curtains I always make an extra yard or two of ruffling to save for "splicing" when the ruffles wear out in spots due to exposure to sunlight and weather. Also when I buy new criss-cross ruffled curtains, I rip off the top ruffles of the curtain that will be underneath when they are crossed over and then this curtain only has a casing for the rod at the top. This gives me yards of ruffling for renewing worn parts and also makes less bulk at the top of the window. It adds years to the wear of curtains. Of course, the latter hint can only be done if each curtain reaches across the entire width of the window. —THRIFTY

DEAR POLLY—Beside me now is a raveled nylon stocking with which I hope to repair a small hole in a wool suit. My own pointer is for making a pin cushion for bobby pins. Pour enough liquid glue or household cement into the bottom of a plastic mug so it is well covered with the glue. Place a loose

plastic type scouring pad in the cup on top of the glue. Let this dry and stand the bobby pins upright in the mug. They will always stay in place and right at your fingertips when you set your hair. —GRACE

DEAR POLLY—I discovered a way to make the popular wraparound skirts without going to the expense of buying a new pattern. Use your favorite skirt pattern and simply cut out two back pieces. After you sew on the belt or waistband, which will tie in the front, put a buttonhole where one of the back pieces joins the front piece (to run the belt through as it goes from back to front). To finish the skirt, hide one or two snap fasteners under the back flap. They will hold it in place. —DONNA

DEAR POLLY—My hint is for the person who has trouble controlling the intake of salt as prescribed in a diet. I filled a pepper shaker with salt and placed it beside my husband's plate. Less salt comes through the smaller holes. —MRS. E. B. GIRLS—There is a certain psychological satisfaction in shaking salt over food whether or not much comes out.—POLLY

# In Other Council Action

City Council, Monday night, with Councilman J. C. Griffin, president pro-tem presiding in the absence of Mayor L. L. Studer who is ill, approved several fire hydrants, street lights, and accepted bids on feeding city prisoners, along with other routine matters.

For the first time in over six years the Council went into session without standing a few moments in meditation, a practice begun under former Mayor Abe Silverman, and continued through the past two years by Mayor Studer.

A petition for curb and guttering on the north side of 12th Street from Marvin to Montgomery, under private contract was approved.

Councilman R. N. Snively under a report of the Fire and Water Committee requested four fire hydrants for the Thompson Hills Shopping Center on West 50 Highway, and one for the southwest corner of Bing's State Fair Shopping Center. Both centers are now in construction.

Councilman Jim Askren, reported he had a claim from Oswald H. Rahm, 412 West Sixth Street, for \$22.13. Askren explained Rahm had a portion of his back alley cave in and was told by a City official that his sewer had probably collapsed. When he had the area dug up it was found the sewer was all right, but the hole resulted from the removal of an old utility pole and inasmuch as it was not any fault of his, he felt the city responsible, due to the fact the utility pole had been taken out on an easement and not properly filled.

The matter was referred to the claims committee.

Councilman Edgar Neighbors requested bids be sought for surfacing of the parking lot at Second Street and Ohio. He requested a street light at 19th street and Thompson.

Councilman Askren then requested a street light on First Street between West Avenue and Rainbow Drive. He also requested a light for Third Street between Vermont and Montebau due to the activity at Sacred Heart School at night.

The lights were referred to the Light and Parking Committee.

Councilman Bob Wells announced a custodian vacancy at City Hall. Griffin presented the name of Curtis McDonald which was approved and the salary set at \$175 a month.

An ordinance approving three street lights was given first reading. They are located at 14th and Massachusetts; 19th

and Lafayette; and 14th and Mildred.

The following liquor licenses were approved: liquor by the drink to Missouri Bowl, 105 South Missouri; to The Bungalow, 114 East Third street; wholesale beer to Hamm's Sales Co., 1218 West Main; package liquor to W. E. Bingham, for Bing's No. 1 store, 11th and Limit; a new package liquor license to E. W. Thompson for the Katz Drug Store at Thompson Hills Shopping Center.

Bids were opened for feeding of City prisoners on a six months basis. Talk of the Town total bid was \$1.20 a day; Coffee Pot \$1.10 and \$1.15 with coffee for the night meal; Brook's Cafe \$1.15; Morris Diner, \$1.10. The bids were referred to Chief W. E. Miller to accept the best and lowest bid.

Only one bid was received for the curb and guttering of four streets in the Country Club Addition, that of the J. W. Atkinson Construction at \$1.85 per running foot or a total of \$6,933.15. The estimate of City Engineer Robert Cunningham was \$7,001.15. An ordinance was ordered drawn to award the contract.

Council approved the destroying of 25 interest coupons at \$20 each and five coupons at \$21.25 each on the Public parking system, a total of \$606.25.

Councilman Askren requested

a yield sign at the intersection of Rainbow Drive and State Fair Blvd., the matter was referred to the traffic committee.

Griffin reported a request of Fred Deal for a loading zone on the east side of Missouri from 16th street back to the alley along his grocery store, this was also referred to the parking committee.

A request from the Dorn-Clooney Laundry for a loading zone on Lamine avenue, between Third and Second street, was referred to the traffic committee.

A petition with nearly 60 names of property owners along a drain ditch area from Broadway and Marvin south to the Centennial Park was read seeking some relief from overflowing waters. The matter was referred to the City Engineer for investigation and report the difficulty to the State Highway Department, which it was reported has caused the extraordinary amount of water to flow in the area due to the change in highway drainage.

Larry Hudson, Iola, Kan., appeared before Council and asked consideration for a Community Cable TV Antenna proposal for Sedalia. He pointed out several business men are forming a company with the desire for a franchise. He declined to divulge names of local men interested.

Bills approved for payment by departments were: General and Administrative \$734.36; Airport \$225.28; Police \$953.24; Fire and Water \$70.23; Street and Alley \$5,289.16; Sewer and Sanitation \$2,087.57; Public Buildings and Grounds \$322.03; Lights and Water \$2,604.75; Gas, Lights and Parking \$36.11, total of \$12,322.73 plus Sewer System Account of \$1,869.65, a total of \$14,192.38.

Bellevue Bank Is Closed By Commissioner

WASHINGTON (AP) — The Federal Deposit Insurance Corporation said Monday the Missouri commissioner of finance has closed the Bellevue Valley Bank, which is insured by the FDIC.

The FDIC chairman, Joseph Barr, said depositors are protected up to the legal maximum of \$10,000 for each depositor and that officers of the corporation will arrive in Bellevue today with a team of claim agents.

Barr said K. A. Randall, director of the FDIC, and Lewis Beasley, a supervising examiner, will lead the team.

He said the group will prepare to make payments to insured depositors within a few days.

Deposits of the bank are estimated at \$1,195,000, the FDIC said.

At Jefferson City Monday, State Commissioner R. B. Mackie said he was seizing the bank because state examiners consider some of the bank's outstanding loans "not proper investments."

Deputy Commissioner John Ridgeway said the examiners

## French File Protest To Attack on Embassy

SAIGON, South Viet Nam (AP)—France protested to the South Vietnamese government today following an invasion of its Saigon embassy by 50 Vietnamese students.

The students burned a small embassy truck, tore down the French seal over the entrance and smashed teleprinter equipment, furniture and windows. A leader urged them on shouting, "Down with France, down with De Gaulle, down with neutralism."

The raid took place after midnight and the embassy was deserted.

It was the second anti-French incident in Saigon in three days. Students damaged a French World War II memorial Sunday during commemoration of a "National Day of Shame" marking the 10th anniversary of the Geneva accord partitioning Viet Nam.

American's station wagon. The crash occurred near the Plaza Monumental bullring in Tijuana. Morales was injured, and is under arrest in a hospital.

Behee was a Republican and a state representative in Kansas from Jan. 20, 1961 until he resigned last Jan. 4. He moved to San Diego from Leavenworth to become branch manager of the paint store.

Both Behee and Luehring had been active in civic affairs in Leavenworth.

Luehring was president of the Julius Kaaz Construction Co., and a former president of the Leavenworth Chamber of Commerce and Jaycee chapter.

Behee was a former director of the chamber and president of the Jaycees. His mother, Mrs. Dorothy Behee, lives in Leavenworth.

## Dr. Sam. Bride Honeymoon In New York City

NEW YORK (AP)—The honeymoon charm of a big city, where the nationally known can mix unnoticed with the crowds, has brought Dr. Samuel Sheppard and his bride to New York City.

The 40-year-old convicted wife-murderer and the German-born divorcee he met and wooed in a transatlantic correspondence from prison, flew in from Chicago Monday and checked into a Fifth Avenue hotel. They were married Saturday.

Soon after their arrival, the Sheppards faced a battery of newsmen and photographers and spoke of the 1954 bludgeoning slaying of Sheppard's first wife—Marilyn.

The length of their holiday was uncertain, however.

There hung a threat of his return to an Ohio penitentiary where he served almost nine years of a life term before his release last week on order of a federal judge who ruled that he had not been given a fair trial.

ies of the ordinance would be mailed to each member of the council for their study. "I feel there will be several changes and suggestions made by the members of the council before the ordinance gets final passage," Griffin stated.

Gary Pasley, of KMOS-TV took the floor and said "I don't believe the ordinance indicates what will be picked up, how it will be handled, or how many times a week the pickup will be made. There could be a certain amount of improvement in the present system, especially if we must pay a fee for it."

Griffin assured Pasley that changes and more definite wording would have to go into the ordinance.

Rev. Walter Fuqua, 417 West Seventh, took the floor and told the council, "There has been no definite expression from the people as to how they feel about this. It appears the people have not had an opportunity to speak up, and I feel the people feel they should have an opportunity to be heard and have a voice in this matter."

Griffin said the council meetings are open to the public and they could be here. "There are plenty of vacant seats in the council chamber tonight," Griffin remarked.

Rev. Fuqua then said, "The city seems to find money to buy big buildings and tear them down for parking lots. I don't see how the city got so hard up all at once."

Griffin broke in and said, "Reverend, no tax money is used for the purchase of parking lots, or for their upkeep. The money comes directly from the parking meter funds for this."

E. B. Smith, a former councilman who was in the audience explained, "The City Hall is the speaking place for the people, and the public have always been invited to attend the council meetings and express themselves."

Griffin then told Rev. Fuqua, "There was ample notice of tonight's meeting in the newspapers and there is hardly anyone here tonight."

Clifford Eck, 1814 East Fifth, asked what four pensioned women living in one house would have to pay. Then he asked about a house with three apartments with one water meter, if three families lived there. It was at this point Griffin said he presumed they would pay per family unit and it would be up to the property owner to report the number of families living there, and if the apartment was vacant, notify the water company of the vacancy and no fee would be charged for that particular unit.

"I don't believe there was very much spelled out in the ordinance," Jesse said, "and nobody has had a chance to read up on it. I am glad we will get copies of the ordinance to study before the next meeting."

Rev. Fuqua remarked, "well, the newspapers didn't tell us much about what the ordinance said."

To this remark of Rev. Fuqua, D. Kelly Scruton spoke up and said, "In defense of the newspaper and the news media in general, we could not have known too much about it, as the councilmen apparently don't know what it is all about either."

That ended the discussion on the garbage collection fee ordinance, which appears to be headed for a fairly good going over by members of the council before it reaches final passage.

## Reds Tighten Up NL Race By Knocking Off Leaders

By MIKE RATHET  
Associated Press Sports Writer

Since Cincinnati Manager Fred Hutchinson made his poignant "man upstairs" statement at the All-Star Game two weeks ago, the Reds have established themselves as legitimate contenders by trimming four games off their deficit and moving to within 2½ games of the front-runners.

The Reds, who won the 1961 pennant scramble, tightened up this year's race again Monday by knocking off the first-place Philadelphia Phillies 6-2 for their seventh victory in the last nine games while the second-place San Francisco Giants lost to the Chicago Cubs 6-4.

The Reds have been on the move, taking advantage of slumps by the Phillies and Giants, ever since Hutchinson spiked a rumor that he was resigning. The tall, stoop-shouldered manager, battling cancer, said at the time:

"I'll quit only if they fire me or if the man upstairs tells me."

The Reds' latest victory handed the Phillies their third loss in four games and ninth in the last 12. The Phillies, however, remained three percentage points ahead of the Giants, who now

have lost six of their last eight. Only one other game was scheduled in the National League. In that, the Houston Astros whipped the Los Angeles Dodgers 4-1, dropping the defending world champions below the .500 mark again.

The Phillies led 2-0 when Cincinnati began to battle back. Tommy Harper's two-run homer in the fifth off Dennis Bennett tied, then the Reds broke through in the sixth for the

## Lady Gym Battling Golf Jinx

CHICAGO (AP)—Maureen Crum, 25-year-old junior high school gym teacher, started battling the medalist jinx of the Women's Western Amateur Golf Tournament today.

Only six times in the meet's 64-year history has the medalist continued to the title.

Miss Crum, a pert brunette from Plant City, Fla., and a semifinalist in the Southern Amateur this year, led 32 qualifiers into the first round.

She topped Monday's trials over the par 37-36-73 Oak Park Country Club course with a 37-38-75.

One stroke behind was defending champion Barbara McIntire of Colorado Springs. Barbara Fay White of Shreveport, La., and Marcella Rose of Jefferson City, 1963 Missouri State champion.

Miss Crum's opening opponent was Kathleen Newton of Cleveland, who qualified with an 80. Miss White met 19-year-old Fela Chavez of Mexico City. Miss Chavez made the championship match play bracket of 32 with 40-40-80.

Miss Rose faced Phyllis Preuss of Fort Lauderdale, Fla., former Curtis Cup player and North-South amateur winner this year. She qualified with 42-38-80.

Miss McIntire played another Ohio star, Linda Lee Matthews of Portsmouth, who had 40-40-80.

Match play will continue leading to the 36-hole finals Saturday.

Upper bracket matches also include Jean Ashley of Colorado Springs, who qualified with a 79, vs. Mrs. Johnny Revolta, Evansville, Ill., who had an 82; Judy Bell, Colorado Springs (79) vs. Sue Cohen, Flossmoor, Ill. (83); and Sue Hilton, Lond. Ont. (77) vs. Mrs. Karen Magee, Prairie Village, Kan. (81).

Lower bracket matches include one between Mrs. Heidi Gramm, Highland Park, Ill., who had a 77 and Doris Phillips of St. Louis who had an 82.

## Optimistic Over Chances Of Chiefs To Take Title

LIBERTY, Mo. (AP)—Coach Hank Stram is "realistically optimistic" about the title chances of his Kansas City Chiefs this fall because the players feel they have obligations to themselves and the fans after a disappointing season.

The club which swept to the American Football League championship in 1962 with an 11-3 record went into a mid-season six-game losing spell last year but the fans didn't desert them in their first season here. Stram's club regained top form, won its last three by top-heavy scores—including a 35-3 romp over Boston—and finished 5-7-2.

"The players are coming back with very strong purpose, determination and a disciplined attitude," Stram said. "The fans supported us so well when we were fighting out of the jungle, we have an obligation to them." Stram, given a new five-year contract by owner Lamar Hunt, has most of the top players from the '62 title team. They include quarterback Len Dawson, only 30 but oldest in the group, halfback Abner Haynes and place kicker Tommy Brooker, whose mid-season leg injury hurt last year.

"Our success definitely depends on the performance of our veterans," Stram said. "We have more experience and talent at every position than last year. They have the ability to get the job."

Stram conceded the Chiefs tried to make a trade but could not get what they wanted. He said present chances of a trade are remote.

"In the offensive line, only three positions were set all last year," Stram said. "The other four were always up in the air because of injuries."

"We went into last year without a proven flanker," Stram said. "Now we have both Frank Jackson and Haynes at that position."

## Crickets, Rockets In Hard Game

In girls' Khoury league softball action Monday, the Rockets and Crickets played a hard-fought 8-5 game with the Crickets on top.

Homers were again the highlight of the contest. For the Crickets, Brenda Whitfield hit two, one in the second with two on and one in the third with one on; Stacey Morris hit one in the second inning with two on.

For the Rockets, Kathy Allen had a homer in the second with two on.

The Rockets, in the fifth, loaded the bases. Mary Roseboom came to bat at a decisive moment for her team. She had two hits to her credit for the evening. With the count at three and two, she struck at a high ball, giving the contest to the Crickets.

Kathy Allen was the losing pitcher for the Rockets, with eight strikeouts to her credit. Stacey Morris took the win for the Crickets with 12 strikeouts.

## Ends Tennis Match

MEXICO CITY (AP)—New Zealand wound up its Davis Cup tennis match against Mexico Monday with Ian Crocenden beating 19-year-old Vicente Zarazu 6-4, 6-4, 4-6, 8-6.

This made the final score of the North American Zone match 3-1-1 in favor of Mexico since the last singles match between Lew Gerrard and Joaquin Loyo Mayo was halted by rain in the fifth set and was called a draw. Mexico had clinched the right to meet Australia by winning Sunday's doubles.

## Buford Grows With Chicago

By DICK COUCH  
Associated Press Sports Writer

Little Don Buford is growing into his White Sox almost as fast as the patched-up Chicagoans are growing on the American League.

Buford, a pre-season Rookie-of-the-Year candidate who fizzled during the early going, continued his recent surge Monday night, driving in four runs with a homer, triple and single as the streaking Sox shelled the Los Angeles Angels 9-0 and climbed to within one-half game of the league lead.

Dick McAuliffe's two-run homer and Don Wert's tie-breaking single carried Detroit to a 7-5 victory over Boston in the only other AL game scheduled.

The White Sox' victory was their fifth straight and ninth in the last 11 games. They trail first place Baltimore by four percentage points.

Buford, a 5-foot-8, 175-pound infielder up from Indianapolis, has hit at a .375 clip during the current Chicago spurt, raising his batting average 23 points to .263. The 27-year-old speedster, under the 200 mark until early in June, has hit safely in 10 of his last 11 games, with two homers, a triple and four doubles.

His three hits Monday supported rookie right-hander Fred Talbot, who evened his record at 3-3 and lowered his earned run average to a sparkling 2.16.

Talbot scattered nine hits en route to his second shutout.

Bill Skowron, recently acquired from Washington, and Pete Ward each chipped in with two hits and Tom McCraw drove in three runs as Chicago halted the Angels' six-game winning string.

## Maybe what your wife needs is a car that's all trunk

Like the Opel Kadett Station Wagon. Its trunk is so big, there's a front seat in it. Flip up that giant back door and you've uncovered 50.27 cubic feet of load space. Just great for loading and unloading grocery sacks, shrubs, monster dogs and tiny children. What if you don't want so much trunk? Simple. Fold up the fold-down back seat. The 46-horsepower engine is another thing of wonder. It has the rare virtue of simplicity. No complicated engineering tricks

that so often breed repair bills. Also, the chassis doesn't require lubrication. Seat belts are standard equipment. So is the nifty luggage rack on top. The stick shift (four forward speeds) is both easy and fun to work. There is probably a Buick-Opel dealer just around your corner. He has plenty of cars, parts, service and desire. And he has something else nice. A low price—a brand new car (with a cavernous trunk) for a mere \$1793.00\*.

\*Non-factory's suggested retail price. P.O.E. East Coast for Opel Kadett Station Wagon is \$1793.00. P.O.E. West Coast is \$1816.00. Prices include reimbursement for federal Excise Tax and suggested dealer delivery and handling charges. Transportation, accessories, optional equipment, state and local taxes additional.

## Bob Horton Plans, Dreams And Gambles

By HAL BOYLE

NEW YORK (AP)—"Life is a battle," said Robert Horton, "and if you don't fight it a little bit every day, you fall behind."

"And that means the next day you have to multiply your effort."

Horton, starring in a Broad-way musical, is one of the most serious young actors in show business.

The big, raw-boned, red-haired performer is a planner, a dreamer and a gambler.

He also likes to have a lot of strings to his bow. Right now he is readying a night club act, expects to follow it with another musical next year. Then, if things go according to plan, he'd like to return to televi-sion.

"I have found that if I planned a goal and worked to-ward it, the plan usually worked out," said Horton, who started acting as an undergraduate at the University of Miami.

"The only time it didn't was when I was in motion pictures. After making several films I was dropped by my studio. For a year I couldn't get anything. I couldn't even get arrested."

"That was a big shock to me. I got hold of myself and started planning again. I decided I wanted to be able to perform in as many fields of show business as possible."

Until five years ago Horton had never sung professionally. A brief singing role in summer stock led him, with the encour-agement of his wife, to take voice lessons.

His moment of doubt came when producers offered him an-other long-term contract in a television series. The money was enough to guarantee him financial security for life. But he turned it down.

"I would have had it made—but I don't want to have it made," he said. "That's disas-trous. I just want to go on mak-ing it."

He is looking forward as eag-erly as a beginner to his first night club tour.

"I'm still as enthusiastic about this business as I was when I was a sophomore in col-lege," he remarked. "It's nice to earn your living in the way you want to."

## Horses Can't Hold Wandering Buffalo

AUGUSTA, Kan. (AP) — A wayward buffalo proved to be too much for horses Monday and his pursuers had to resort to trucks to capture him.

The buffalo hopped a fence at the home of his owner, Owen McEwen, and led police and volunteers on a five-hour chase.

After gouging a horse, the 1,800-pound buffalo was roped, anchored between two pickup trucks and given two tranquiliz-er shots. Then he was loaded into a horse trailer for the re-turn to McEwen's farm.

## World News Glimpses

GENEVA (AP)—The popula-tion implosion—the mass shift of people from the country to the city—threatens the world with serious overcrowding and health hazards, the World Health Organization says.

It predicted the influx from rural areas will increase as mechanization of agriculture re-duces the farm population to only 10 per cent by the end of this century.

The committee of experts said the world population is expected to double by the year 2000 to more than six billion and called the drift to the cities "one of the crucial challenges of our time."

ISTANBUL, Turkey (AP)—The chiefs of state of Pakistan, Iran and Turkey opened a con-ference today on closer econom-ic cooperation of the Central Treaty Organization's three non-Arab Moslem members.

President Mohammed Ayub Khan of Pakistan and Shah Mo-hammed Reza Pahlavi of Iran were greeted Monday by Turk-ish President Cemal Gursel, Premier Ismet Inonu and For-eign Minister Cemal Erkin.

HAMILTON, Bermuda (AP)—Four U.S. Navy divers are spending three weeks in a 40-foot capsule 192 feet below the ocean surface. They are investi-gating man's ability to live and work underwater.

The capsule, Project Sealab 1, was moored Monday off Artem-is Argus Island 26 miles south-west of Bermuda, an area in-fested by barracuda up to 5 feet long.

The four aquanauts are Lt. Cmdr. Robert Elliot Thompson, 36, Gales Ferry, Conn.; Gun-ner's Mate 1. C. Lester Ander-son, 31, Uncasville, Conn.; Chief Quartermaster Robert Barth, 33, Key West, Fla., and Chief Hospital Corporman Sanders Manning, 33, Groton, Conn.

NEW DELHI, India (AP)—A cholera epidemic in central In-dia has taken 91 lives since July 1, health authorities reported to-day.

A spokesman said 505 cases were recorded in 55 villages in Maharashtra State about 200 miles northeast of Bombay.

RAWALPINDI, Pakistan (AP)—Twenty-six persons died Monday in Bahawalnagar, 400 miles south of Rawalpindi, as the result of a severe rainstorm, the Pakistan Times reported.

## Negro Chosen President Of City Council

CAMBRIDGE, Md. (AP)—Charles Cornish, a man by-passed when other Negroes were making a frontal assault on racial barriers in Cam-bridge, was elected City Council president Monday night.

The five-man council reorgan-ized after last Tuesday's sharply contested municipal elections which hinged on the town's re-cent history of troubled race re-lations.

The council split 3-2 on his se-lection.

The two who opposed Cornish were elected last week after campaigning against equal ac-commodation laws — federal, state or local.

Cornish, the council's only Negro, enlisted the support of Leon Majors, who voted for a city public accommodations provi-sion last year, and Cecil Web-ster, newly elected and consid-ered a moderate on the racial question.

Cornish, who will be 66 next month, has served on the coun-cil for 18 years.

He succeeded H. M. St. Clair, grandfather of Gloria Rich-ardson, who has used Cornish's home Second Ward as a staging area for a militant integration drive since 1962.

Cornish, the first Negro city council president in Maryland, says the proper place to look for racial equality is the conference table.

"The militants feel you should run all the time," he said, "but there are times when you can go farther and last longer by walking."

Cornish lives with his wife in a well-kept white, two-story frame house a block and a half down the street from the head-quarters of Mrs. Richardson's Cambridge Nonviolent Action Committee.

"I feel as deeply about what the demonstrators were after as any Negro does; there's no Negro in his right mind who wouldn't feel the same way," Cornish said.

"They called me an Uncle Tom," he said, "but I have been working religiously for my peo-ple, for all the people of Cam-bridge, since I was elected to office."

"It wouldn't have been ap-propriate for an elected official to join those who were breaking the law. I'm bound to keep the peace."

## Stan Laurel Is Gravely Ill Of Diabetic Attack

HOLLYWOOD (AP) — Stan Laurel, 73, the surviving mem-ber of the all-time great comedy team of Laurel and Hardy, lies ill today in a hospital from a di-abetic attack.

He has been there since last Thursday—and no one is sup-posed to know about it. But somehow, 1,000 letters a day have come to the hospital from Laurel and Hardy aficionados.

"Stanley is amazed that peo-ple are so concerned," said a close friend. "Every nurse and doctor in the hospital finds some excuse to come in his room, just to talk with him. It's amazing, the love his fans have for this great comedian."

West Valley Baptist Hospital in nearby Encino won't even ad-mit that the English-born co-median is a patient.

"We have no one here by that name," hospital attendants say tersely.

But Laurel himself, via the close friend, leaked the word so that he could publicly thank the thousands who have written him.

"I don't know how people found out," the friend quoted Laurel, "but tell them all thanks."

In their prime, Laurel and Hardy had a fan club in Europe that numbered more than two million members. His former partner, Oliver Hardy, died in 1957.

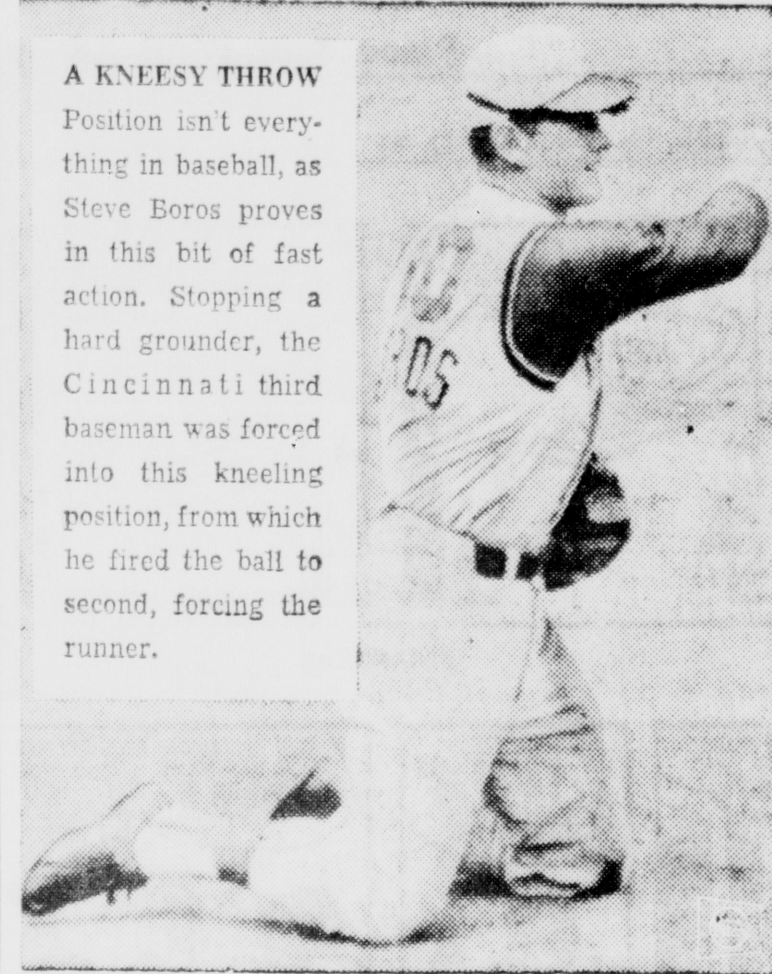

Congress has empowered the secretary of the treasury to re-ceive gifts from individuals for a specific purpose.

Italy, where the diamond was said to be a "flame of love," originated the diamond engage-ment ring.

## Peaches Leads Field In Girls Tennis Play

LAKE BLUFF, Ill. (AP) — Defending Champion Peaches Bartkowicz of Hamtramck, Mich., leads a field of 32 sur-vivors into the second-round today of the national 16-and-under girls tennis tournament.

Miss Bartkowicz, 15, had little difficulty eliminating Laurel Holgerson of Milwaukee 6-0, 6-0 in the opening round Monday.

Seven other seeded players in-cluding Patsy Rippy of Shawnee, Okla., also survived first round action.

California led the parade among the seeded players with five left in the running. The only outsider was third-seeded Becky Vest of Jackson, Miss.

## Laos Neutral Forces Regain Phou Kout Hill

VIENTIANE, Laos (AP)—Neu-tralist troops have recaptured strategic Phou Kout Hill and advanced eastward toward the Communist-held Plaine des Jarres, a military spokesman announced today.

The spokesman said the neu-tralists had cleaned out 100 Communists from the hill's eastern slopes, the last pocket of Red resistance.

The spokesman said he did not know if the neutralists would continue their advance to the Plaine des Jarres, 20 miles east of Phou Kout. The Com-munist Pathet Lao drove them from their positions around the strategic plain in the past two months.

Earlier reports said 30 neu-tralists had been wounded in the assault on Phou Kout but gave no estimate of Communist casu-alties.

Phou Kout had changed hands at least four times in the past two months.

The neutralists launched the offensive at dawn Sunday to forestall a threatened Commu-nist attack on Muong Soui, their last stronghold near the Plaine des Jarres 110 miles northeast of Vientiane. Phou Kout over-looks Muong Soui as well as Route 7, the main east-west road across Laos.
